WHAT IS SAFECONTRACTOR?

SafeContractor is a SSIP accreditation and PAS91 aligned contractor scheme. It proves you're compliant with all the latest relevant legislation relating to health and safety, equal opportunities, diversity, and environmental management.

One reason why SafeContractor is so popular is our fantastic team of expert auditors. We have the largest in-house team of health, safety and ethical auditors in the UK - ready to guide you every step of the way.

Why do I need SafeContractor accreditation?

Being SafeContractor accredited shows customers that your health and safety, equal opportunities, diversity, and environmental management policies and documentation are up to date and meet all the standards for your industry.

Tendering for new work opportunities can take a lot of time. Fortunately, now all we have to do is show our SafeContractor certificate which saves us both time and money.

Neil Newman, Hydrotech Environment & Civils Ltd.

Many companies insist on it – but that's not the only reason to join.

SafeContractor helps you:

- **Prove your commitment to safety and ethical practices** by displaying the SafeContractor approved seal
- **Show your business is credible** to help win more clients
- **Gain complete peace of mind** that your business meets the right standards
- **Stay ahead of the competition** when tendering for work

There are many reasons why SafeContractor is rated Excellent on Reviews.io:

- **An SSIP founding member** with 20 years' experience
- **Full PAS91 compliance**
- **A technical team of 50**, the largest team in the UK, to help you succeed
- **Tailored risk-based questions** so it's relevant to your profession
- **Free 24/7 access** to advice lines provided by Alcumus PSM
- **Easy-to-follow accreditation guidance notes and templates**

HOW DO I GET ACCREDITED?

The accreditation process couldn't be easier

1. Choose a plan
2. Register with us
3. We'll send you a pre-qualification questionnaire
4. We'll ask you for some key documents – including any that are specific to your profession
5. Once we've got your form and documents, your auditor will get to work
6. If anything is missing, we'll work with you to understand what you need to meet the SafeContractor assessment standards
7. Once everything is in hand, you'll be accredited

Some of the questions will be specific to your profession. Examples of what you might need to provide are:

- ✓ Your health and safety policy
- ✓ A recent risk assessment
- ✓ Liability insurance certificate
- ✓ Evidence of appropriate training
- ✓ Relevant trade qualifications
- ✓ Details of your health and safety rep
- ✓ Any past infringements you need to declare

“I called the SafeContractor team and found them extremely knowledgeable and helpful. They provided templates that actually filled the few gaps we had in our health and safety policy. The accreditation has helped to enhance our reputation for health and safety and raise the profile of our business, opening the door to land the global manufacturer.”

Andrew Young, Metalwash.
